CAREER SUMMARY

Senior Software Engineer with 6+ years of experience designing and leading full-stack e-commerce solutions using Ruby on Rails and Spree Commerce. Proven team lead with deep expertise in microservices architecture, CI/CD pipelines, and cloud deployments across AWS and DigitalOcean.

Practitioner of **Spec Driven Development** — writing detailed feature specifications before implementation to align stakeholders, reduce rework, and ship predictable, well-tested software. Experienced in translating business requirements into precise specs that drive development across cross-functional teams.

Track record of delivering scalable, maintainable applications for international clients, contributing to open source (Spree ecosystem), and leveraging AI-assisted development tools — including GitHub Copilot, Cursor, and Claude — to accelerate delivery without compromising code quality.

WORK EXPERIENCE

Senior Software Engineer I Sysvine Technologies

February 2025 - Present

Leading the CPVN microservices project, managing team deliverables, and driving end-to-end development. Hands-on with React frontend, Docker-based deployments, and agile practices including retrospectives and sprint planning.

Achievements & Optimization:

- Led the CPVN internal microservices project, ensuring modular, scalable, and maintainable architecture.
- Streamlined Docker-based deployments, improving CI/CD efficiency and reducing release cycles.
- Coordinated React frontend development, ensuring smooth integration with backend services.
- Conducted retrospective and sprint meetings to optimize workflows and team performance.
- Enhanced project visibility and collaboration through agile methodologies and effective team management.

Skills:

Microservices React Agile Methodologies Docker Project Leadership

Senior Software Engineer (Team Lead) Bluebash Consulting Private Limited

August 2020 - January 2025

Proven Senior Software Engineer excelling in dynamic leadership and technical prowess. Orchestrates efficient project cycles, ensuring quality and timely delivery. Specialized in Ruby on Rails and Spree E-Commerce, optimizing team performance and aligning objectives with business goals.

Achievements & Optimization:

- Spearheaded a proficient software engineering team, orchestrating project development cycles and ensuring adherence to timelines and quality benchmarks.
- Collaborated seamlessly with cross-functional teams, defining project scopes, requirements, and deliverables.
- Provided authoritative technical leadership, influencing key architectural decisions and ensuring coding best practices.
- Successfully executed projects, leading to measurable enhancements in efficiency, user experience, and cost-effectiveness. Implemented agile methodologies, optimizing project management processes.

Skills:

Leadership Collaboration Technical Leadership Subject Matter Expertise Project Execution Team Development Agile Methodologies Collaboration with Management

Internship Allsoft Solutions

June 2019 - July 2019

Contributed to analysis using tools like Hadoop and Spark. Collaborated with a multidisciplinary team, actively participating in project goals. Conducted hands-on data analysis and visualization, gaining practical experience.

Skills:

Hadoop Hive Pig

OPEN SOURCE CONTRIBUTION

Spree eCommerce https://spreecommerce.org

Spree

Contribution: Updated documentation for **Spree Gem**, ensuring clarity and accuracy of instructions for developers, and clarified existing documentation to improve accessibility.

Impact: Improved developer experience by providing comprehensive and up-to-date documentation, facilitating easier adoption and usage of the Spree extension by the community.

Spree Admin Dashboard

Contribution: Enhanced the **Spree Backend (Spree Admin Dashboard)** sidebar configuration, improving the user experience by making the navigation more intuitive and user-friendly.

Impact: Improved the usability of the Spree Admin Dashboard for users, facilitating easier access to essential features and functionalities, and enhancing overall productivity and satisfaction for administrators managing their stores.

Spree Analytics Trackers

Contribution: Enhanced compatibility of **Spree Analytics Trackers Gem** with Spree 4.7 version, ensuring seamless integration and functionality for users upgrading to the latest Spree release.

Impact: Streamlined the transition process for Spree users, enabling them to leverage the latest features and improvements without disruptions caused by compatibility issues.
